Monette Joins the MDI Family

In a move to better position Monette Information Systems for continued growth and for responding to the ever-changing requirements of the long-term care market, the shareholders of Monette have sold the company to MDI Technologies, Inc., based in St. Louis, Missouri. MDI is a leading player in this market offering clients the choice of installing purchased software on-site or having it hosted by MDI through the MDIConnect ASP hosting service. To learn more about MDI, please visit <http://www.mditech.com>.

Most importantly, please be assured that we will continue to support all users on the products purchased. In addition, ULTRACare clients will gain access to MDI's clinical solutions, and a full suite of administrative software, from accounting to payroll and human resources modules, as well as to MDIConnect. Read our Press Release at <http://www.monette.com/MDI%20Monette%20Press%20Release.pdf>.

ULTRACare Version 14 Released

We are pleased to announce the general release of ULTRACare 2006 - Version 14. Thank you to the Beta Test sites who worked closely with our software development team to insure that all of the new features and enhancements have been fully tested and ready for everyone to use. This update includes many brand-new features, several system-wide enhancements, and plenty of user-requested changes that make ULTRACare even more usable and powerful.

For complete information on the changes in this new release, please download our Release Bulletin at <https://support.monetteinc.com/version14/>.

To prepare your facility for any software changes that might impact your operations, please distribute a copy of this documentation to all ULTRACare users for review before installing the update. The update can be downloaded from our secure site at <https://support.monetteinc.com/version14/>.
